

### **How to make your Grumpy Club badge**

Print off this pdf and cut out your badge(s).

Draw a 3" diameter circle on an old cereal box or similar thickness cardboard (I used a compass but you could use the badge as a template) and cut out just inside the pencil line, so that it's very slightly smaller than the badge front. Spread a thin layer of glue to the cardboard circle and stick the badge on.

Tape a largish safety pin to the back (duck tape is good).

Alternatively, you could just print the pdf onto white card and attach the safety pin.
