See full description below

Shark Classic Upright Vacuum NV602UK

Shark's signature Lift-Away Technology gives you portable cleaning in an instant with their lightest corded vacuum cleaner.

At the touch of a button, simply lift the detachable canister away from the floor-head to create a lightweight, portable vacuum cleaner that can take you anywhere. From stairs to sofas and soft furnishings – you can even reach curtains, ceilings and light fittings with the wand.

Attach the included crevice tool in portable mode to tackle everyday cleaning tasks with ease.

Switch between carpet and hard floor modes at the touch of a button. Adjustable suction control helps you clean thick and thin pile carpets, rugs and hard floors.

Extra-long reach - with a stretch hose and 8m power cord you can reach up to 10.76m for effortless cleaning. Easily move around furniture with swivel steering. Powerful LED headlights help to illuminate hidden dust.

This bagless vacuum cleaner also provides extra assurance to those with allergies. Anti-Allergen Complete Seal captures and traps 99.9% of dust and allergens inside the vacuum, not releasing them back into the air you breathe (based on IEC standard 62885-2 Cl. 5.14 at 0.3 to 10 microns).

What's included: 1 x Main Unit; 1 x 2-in-1 Duster Crevice Tool; Instruction Booklet.
